

EAP Guide for Girl Scout Troops

EMERGENCY ACTION PLAN (EAP) Overview:

Per the Safety Activity Checkpoints, "The Girl Scout motto is "Be prepared." and proper preparation is the key to success. An important thing to consider ahead of time, before taking girls out on a trip or to an activity, is an Emergency Action Plan." The Emergency Action Plan (EAP) is to be followed in the event of a major emergency. A major emergency is defined as one requiring immediate medical care (i.e. Paramedics, EMTs, ambulance). Examples of a major emergency are: near drowning, unconscious victim, severe bleeding, cardiac arrest, suspected major fractures, severe head injury, suspected spinal injury, obstructed airway, seizure in the water, critical burns, and sudden illness like fainting, stroke, heart attack, heat stroke, or diabetic emergency.

The EAP is a plan for the reporting and care of participants and staff during troop travel as defined by the council. During all emergencies, care must be taken not to further endanger the victim or other persons. Calm and clear action on the part of the responsible adult(s) is critical.

On any outing with your group, take with you:

- Signed parental permission forms, which include where parents can be reached in case of an emergency
- Emergency telephone numbers:
Police _____
Fire _____
Hospital _____
Poison Control Center _____
- Directions to the nearest hospital or medical facility
- Cell phone

Prior to the trip, adult leaders should review the following topics available in both the Volunteer Essentials and Safety Activity Checkpoints:
